

# Toby's Box

Key Words: **Doubt**

Key Verse: "When they saw him, they worshiped him; but some doubted." *Matthew 28:17*

Toby was playing with his favorite toy. His family's new television had come in a large cardboard box, and now the box was empty. Toby loved playing with it. Today it was a bus, and Toby was the proud driver. Sometimes he would allow his baby sister Samantha to sit in his bus as a passenger. But if she started to cry he got fed up and made her get out.

Toby played with his bus for several weeks. Then one day his mother found him underneath the box. "Why, Toby," she said, "I hope your bus hasn't had an accident. It seems to be upside-down."

Toby stared at his mother in amazement. "This isn't a *bus*," he exclaimed. "It's a house."

"Oh!" said his mother. The she added, "If you put it on its side, perhaps you could use the flap as a door."

Toby turned the box on its side. He spent many happy hours crawling into and out of the box, and he even brought some of his toys into his new house, sitting them on smaller cardboard boxes, which had become chairs.

One day he brought Samantha into his

house and gave her a tea party with some of his toys. Samantha was very excited, but when she banged her spoon in the jam and it flew all over Toby's new house, she had to go out.

That weekend, Toby's uncle took him out on the lake in a rowing boat. It was the first time Toby had ever been in a boat, and he loved it.

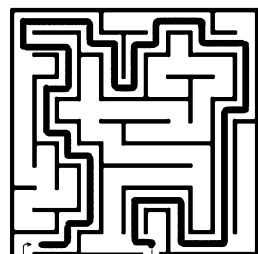

After that, the box became a boat.

When Toby grew too old to play in cardboard boxes, he used the box to store his toys. And after that, it stored his homework and later, his college notes. Even after he was married, Toby kept the box. And one day, he's sure it will become the favorite plaything of his own family.

## Questions

**Did you ever have a toy that you pretended and imagined with?**

**What did Jesus tell his disciples that he wanted them to do?**

### Mathematical Genius

Try to fill in the missing numbers. The missing numbers are integers between 0 and 9. The numbers in each row add up to totals to the right. The numbers in each column add up to the totals along the bottom. The diagonal lines also add up the totals to the right.

### Maze

In today's Gospel lesson, Jesus commands the disciples to travel all over the world and teach everyone they meet about how much God loves them. Help Peter find his way through the forest, so that he can make some new friends and share the good news by drawing a path from Peter to the other side of the trees.
